

Monday 23.11.20

	Hundreds	Tens	Ones
	9	2	1
+		8	2
<hr/>			

Annie is using an expanded layout to solve **921 + 82**.

She says "I should add the hundreds column first because 9 is the largest value digit." Do you agree or disagree? Why?

Tuesday 24.11.20

Look at the equation **$463 + 495 = 958$**

Which approximation would you do mentally to check the reasonableness of the answer?

$400 + 400$

$470 + 500$

$500 + 500$

$450 + 500$

Thursday 25.11.20

All of the digits to fill in this calculation are either a **4** or a **7**.

Can you work out each digit?

□□□□ +

□□□□

9521

Can there be more than one solution?

Thursday 25.11.20
